SUBJECT INDEX FOR VOLUME 30

accidents, among motor cyclists in Singapore, 639–640
to the head, 859–865

activism, among medical geographers, 173–177

addiction, ideologies and practices, 987–1000

AIDS, and school boards, 267–279
and women, 407–415
a comparison of stereotypes, 549–552
and male coping, 713–720
attitudes in Sweden, 913–918
research in developing countries, 1265–1272

alcohol, and brain damage, 349–364
and health among the Maoris, 431–440
and the disease-model, 987–1000

Alzheimer's disease, 1247–1256

anticipatory grief, 1073–1080

Arctic, 727
Inuit mental health, 739–749
growth patterns among the Inuit, 751–759

Australia, infant mortality compared with United Kingdom, 1283–1288

bereavement 1073–1080

Bolivia, community health workers, 281–287

Brazil, determinants and costs of malaria, 1097–1105

breast-feeding, in Jamaica, 341–348
in Indonesia, 625–633

Canada, health care service utilization in North Quebec, 25–34
financial incentive programmes in Ontario, 35–44
health services and the rural elderly, 45–52
and urban emergency services, 53–66
housing and the mentally disabled, 95–102
AIDS and school boards, 267–279
utilization patterns among urban natives, 579–589
hospital utilization among the elderly, 819–828

cancer, and coping behaviour, 569–578
attendance in screening programmes, 693–699
screening programmes for breast neoplasms, 1107–1118
and GPs' behaviour, 1241–1246

chemotherapy, and malaria in the Philippines, 789–796

child health, and growth patterns in the Arctic, 751–759
diarrhoeal disease, 773–776
neonatal intensive care units, 901–912
and nutritional status in Egypt, 929–940
disablement and the family, 1229–1239

chronic illness, qualitative research, 1149–1263

clinical ethics, 389–399

Colombia, community health, 1041–1048

community health, 829–835
and community financing in Zaire, 1319–1327
participation in water projects, 1349–1358

community health workers, in Bolivia, 281–287
case study of Colombia, 1041–1048

community participation, in primary health care, 211–219

community support services, and the rural elderly, 45–52

congenital malformation, in an English region, 103–109

coping, among facial cancer patients, 569–578
with renal failure, 1211–1224

coronary care, 297–304

coronary disease, and bypass surgery, 249–260
U.S. patterns of mortality, 261–266
and rehabilitation, 523–536

Costa Rica, and primary health care, 211–219

depression, in the elderly, 441–447

diabetes, and self care education, 605–615

diarrhoeal disease, intervention in Grenada, 1089–1095

disability, 839–912
children and the family, 1229–1239

disasters, managing ecological upheavals, 1065–1072

doctor/patient interaction, 199–204
and compliance, 325–339
and the state, 417–429
and consultations, 509–515
and GPs' attitudes, 537–547
problem patients, 951–959
styles of delivering health care, 1359–1365

donor assistance, in Central America and Africa, 1015–1023

dwarfism, 879–887

ecology, of health service utilization in Grenada, 13–24

Egypt, child health in Cairo, 929–940

elderly, social networks and depression, 441–447
and community based services, 761–771
and health care utilization, 819–828
in long stay institutions, 1201–1210

emergency services, and utilization rates, 53–66

epidemiology, gender differences in AIDS, 407–415
of child injury mortality, 479–486
the use of anti-schistosomal drugs, 1131–1138

epilepsy, effect on the family, 1229–1239
patient beliefs, 1313–1318

Ethiopia, health and re-settlement, 643–656

ethnopharmacology, an Hausa case study, 919–928

Finland, general practice consulting behaviour, 509–515
farmers' health programme, 1035–1040

France, a version of the Nottingham Health Profile, 829–835

gender differences, in smoking in Kenya, 305–310
among physicians, 373–378
and the effects of unemployment, 469–477
in medical student stress, 777–787
and high blood pressure, 1273–1281
and headache, 1289–1295

general practice, consulting behaviour, 509–515
attitudes of practitioners, 537–547
and self-care programmes, 591–596
referrals to physiotherapy, 797–804
practitioners' attitudes towards cancer patients, 1241–1246

genetic risk, 839–847

Grenada, a diarrhoea disease control project, 1089–1095

grounded theory, and chronic illness, 1161–1172

head trauma, 859–865, 889–893

health beliefs, 721–726
ideas of patient about epilepsy, 1313–1318

health economics, implications of mental illness, 961–968
aspects of cervical cancer screening, 1081–1087
maternal satisfaction with the cost of child care, 1297–1311
financing hospital care in a developing country, 1319–1327

health education, in rural Pakistan, 675–691
in Finland, 1035–1040

health information systems, 143–155

health policy, conceptions of space and community, 165–171

health services, in Kingston, Jamaica, 1–12
utilization in Grenada, 13–24
among aboriginals in Northern Quebec, 25–34
their spatial analysis, 157–164
and PHC interventions, 401–405
and the concept of neighbourhood, 701–711
comparative utilization patterns in cases of headache, 1289–1295

hospital choice, in a province of Korea, 1119–1129

hospital utilization rates, 67–82
among the elderly in British Columbia, 819–828

housing, and the chronically mentally disabled, 95–102
dampness and health, 131–141

hypertension, racial and gender discrimination, 1273–1281

immunization, in Iran, 279–383

India, ghost illness in a northern village, 617–623
the use of unani medicine, 1139–1141

Indonesia, and breast feeding, 625–633

inequalities, in pregnancy outcome, 553–568
and health in Scotland, 665–673

Iran, and immunization programmes, 379–383

Jamaica, spatial patterns of health service utilization, 1–12
the promotion of breast-feeding, 341–348

Kenya, gender differences in smoking, 305–310

Korea, hospital selection, 1119–1129

lay midwives, certification and organization, 1329–1339

Machado–Joseph disease, 839–847

malaria, and operational research, 789–796
socioeconomic determinants in Brazil, 1097–1105

maternal and child health, alcohol and brain damage, 349–364

maternal health, and pregnancy screening, 289–295
pre-natal care among low income women, 487–495
social inequalities and pregnancy outcome, 553–568
and psychosocial influences, 597–604
infant feeding in Indonesia, 625–633
the organization of lay midwives, 1329–1339

medical anthropology, 179–260, 727, 739–749, 945–1013
(see also traditional medicine)

medical ethics, 389–399
and intensive care units, 901–912

medical geography, VII–177
and cardio-vascular mortality in the U.S., 261–266
planning coronary care services, 297–304
and health service administration, 701–711

mental disability, and housing, 95–102

mental health, the use of categorical data models, 83–94
and social networks among the elderly, 441–447
in the Canadian Arctic, 739–749
and economic implications, 961–968
the case of schizophrenia, 969–985
long-stay patients in public mental hospitals, 1341–1347

mortality, from injuries, 479–486
infant deaths in Australia and Britain, 1283–1288

multiple sclerosis, personal narratives, 1173–1186

New Zealand, Maori health, 431–440

non-filiarial elephantiasis, in Ethiopia, 643–656

Nottingham Health Profile, 829–835

nuclear fallout, risk perception and policy, 729–738

occupational health, repetition strain injuries, 365–372
and smoking, 457–467
and respiratory disease, 805–810
farming in Finland, 1035–1040
malaria among gold miners, 1097–1105

osteoarthritis, and social support, 503–508

Pakistan, medical innovation and maternal health practices, 675–691

Papua New Guinea, indigenous medical beliefs, 311–323
penicillin and scorcery, 1059–1063

patient satisfaction, and sociodemographic characteristics, 811–818

perinatal services, in urban Cape Town, 111–130

physician maldistribution, in Ontario, 35–44

physicians, gender comparisons, 373–378
and the state, 417–429

physiotherapy, referrals from GP, 797–804

political economy, and the tobacco industry, 227–235
and nuclear regulation, 237–248

population ageing, and health services in Ontario, 45–52

primary health care, in Costa Rica, 211–219
in the Dominican Republic, 221–226
and health services utilization, 401–405
utilization patterns in Saskatoon, 579–589
in multi-level perspective, 1025–1034
and community programmes in Colombia, 1041–1048
styles of delivery, 1359–1365

psychiatric care, categorical data analysis, 83–94

psychiatric co-morbidity, and hospital treatment, 205–209

pulmonary disease, among construction workers, 805–810

qualitative research, and chronic illness, 1149–1263

race, variations in high blood pressure, 1273–1281

racial groups, and perinatal health care in South Africa, 111–130

rehabilitation, after heart attack, 523–536
ideology and technology, 867–877
and the economic implications of mental illness, 961–968

renal failure, patient careers, 1211–1224

repetition strain injury, an Australian/American comparison, 365–372

resettlement, and health in Ethiopia, 643–656

schistosomiasis, 1131–1138

schizophrenia, 969–985

screening, in pregnancy, 289–295
for breast cancer, 693–699
for cervical cancer—economic evaluation, 1081–1087
for breast cancer, 1107–1118

self-care, its social psychology, 449–455
and general practice, 591–596
education for diabetics, 605–615

Singapore, motor cycle accidents, 639–640

smoking, tobacco companies in the Third World, 227–235
gender differences, 305–310
and health among the Maoris, 431–440
and occupation, 457–467

social networks, and the elderly, 441–447
and osteoarthritis, 503–508, 635–637

social policy, and medical judgement, 657–664
and the elderly, 761–771

South Africa, perinatal health care in Cape Town, 111–130
lessons from the Biko case, 417–429

spatial patterns, of health services utilization, 1–12
of congenital malformations in an English region, 103–109

stigma, and institutional control, 895–900
the case of epilepsy, 1187–1194

stress, in medical students, 777–787

Sweden, health policy and nuclear fallout, 729–738
public reaction to AIDS, 913–918

technology, of respiratory support, 867–877

Thailand, nutritional status and diarrhoea, 773–776

torture, the Biko case, 417–429

traditional medicine, and community health workers in the Andes, 281–287
in Papua New Guinea, 311–323
in a North Indian village, 617–623
in the Hindu Kush, 675–691
in rural Hausaland, 919–928
sorcery and penicillin in Papua New Guinea, 1049–1063
in an Indian clinic, 1139–1141
(see also medical anthropology)

unani medicine, 1139–1141

unemployment, and psychological distress, 469–477

United Kingdom, congenital malformation in Lancashire, 103–109
housing dampness and health, 131–141
space and community in health policy, 165–171
social class and health in Scotland, 665–673
infant mortality compared with Australia, 1283–1288

U.S.A., hospital utilization rates in Michigan, 67–82
child injury mortality in New Mexico, 479–486
social policy and medical judgement, 657–664
American culture and disability, 849–857

West Indies, the ecology of health service utilization, 13–24

women, AIDS, 407–415
low income and pre-natal care, 487–495
low birth rate in South-east Asia, 497–502
socio-psychological factors influencing pregnancy outcome, 597–604
participation in breast cancer screening programmes, 693–699

youth, health inequalities and social class, 665–673

Zaire, community financing for hospital care, 1319–1327

Zimbabwe, drugs in schistosomiasis control, 1131–1138
